A c/kWh legacy charge, 80% of the Generation capacity charge, and 66.7% of the service and administration charge are included in the energy charge due to the phased implementation of the GCC and service and administration charges.

For Homepower supplies on prepaid, the active energy charge, ancillary service charge, and network demand charge will be combined into a single c/kWh rate on the vending system. Similarly, the network capacity charge, generation capacity charge, and service and administration charge will be combined into a single R/POD per day charge on the vending system.

For a description of the charges refer to the definitions on pages 8-11.
